

Appin. No. 10/700,949  
Amendment dated October 7, 2005  
Reply to Office Action mailed December 21, 2004

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims** (deleted text being struck through and added text being underlined):

1. through 9. (cancelled)

10. (Previously presented) A foot mobility aid, comprising:  
an elongate flexible strap having a pair of opposite first and second  
ends, a first end portion being positioned adjacent said first end;  
said flexible strap having a generally rectangular transverse cross  
section and having a pair of opposite faces, and a pair of side  
edges extending between said ends of said strap;  
said strap having a length defined between said ends of said strap and  
a width defined between said side edges of said strap;  
wherein said length of said strap is about 5 feet;  
wherein said width of said strap is about 2 inches for optimal comfort  
for a user's foot and flexibility of the strap;  
a first of said ends of said strap being folded back over an adjacent  
portion of said strap and coupled to said adjacent portion of said  
strap to form a foot loop adjacent said first end of said strap;  
said foot loop being adapted for extending the foot of a user therein  
such that the arch region of the user's foot is positioned in said  
foot loop;  
a resiliently deformable pad being removably mounted on said strap in  
said foot loop, wherein a hook and loop fastener removably  
mounts said pad to said strap in said foot loop;  
a handle being coupled to a second of said ends of said strap; and  
said handle being extended substantially perpendicular to said strap,  
said handle having a plurality of finger grooves;  
means on said strap for adjusting an effective circumference of said

25 foot loop formed by said strap, said means for adjusting an effective  
26 circumference of said foot loop comprising:

27 a plurality of apertures extending through said strap and being  
28 arranged substantially along a line extending from said first end  
29 toward said second end;

30 a buckle for detachably coupling said first end of said strap to a  
31 location on said strap between said first and second ends of said strap  
32 to form said foot loop, said buckle being mounted on said strap at a  
33 spaced location from said first end of said strap, said buckle defining  
34 an opening for receiving said first end portion of said strap, said  
35 buckle including a prong insertable into one of said apertures formed  
36 in said first end portion of said strap to adjust a position of said end  
37 portion of said strap with respect to said buckle to adjust a  
38 circumference of said foot loop.

11. (Cancelled)
